

Digital Locks

LOWE&FLETCHER
LOCKING SYSTEMS FOR INDUSTRY

Digital Locks from Lowe & Fletcher

Designed to complement traditional locking products, the Lowe & Fletcher range of digital and electronic locks are an ideal solution for your locking requirements.

With many different designs and features, these advanced locking systems offer convenience and reliability for any commercial or industrial application.

The digital and electronic locks we manufacture eliminate the need for user keys and so vastly reduce associated costs. The wide range of functionality these locks offer gives users increased flexibility in the control and access of their personal storage and wider environment.

They also help to facilitate flexible working and hot desking, which are essential tools in the modern workplace.

Common applications include lockers, wooden office furniture, metal office furniture, enclosures and postal and delivery systems.

Lowe & Fletcher has been designing, manufacturing and supplying locking systems for commercial and industrial applications since 1889. Call today and speak to the experts.

Horizon
digital combination lock

Horizon Digital Combination Lock

Horizon is a slimline, small footprint lock with an ultra-modern look and feel. Designed for use on lockers, cabinets, delivery boxes and general enclosures, it is easy to install and simple to operate.

The pop-out handle offers additional security and the coloured indicator ring shows at a glance if the lock is in use or available. The unique mechanical override key permits managerial access in the event of an emergency and an impressive range of custom colours to complement any environment.

Now available with an upgraded processor, Horizon Real Time Clock (RTC) (Product ID: 3951) keeps track of the time and date, while activation codes allow the lock to be used for a chosen period of time. This makes it ideal for booking applications where the lock should prevent further use after the reserved period has expired.

Visit www.connectedlocking.com for further information.

Product ID: 3950

Standard Features

- ✓ Vertical, left and right fixing
- ✓ Flush or surface fixing
- ✓ Industry standard 20 or 24mm barrel length
- ✓ Public, private, remote allocation, rental and multi-user operating modes

Nimbus Digital Combination Lock

Product ID: 3960

Product ID: 3961

Introducing Nimbus – the next generation Digital Combination Lock.

Designed in a sleek, slimline style, the Nimbus Lock incorporates a membrane touch keypad whilst the illuminated 'halo' around the logo button signals button presses and operations on the lock.

Using the proven internal mechanism of the best-selling 3780 digital combination lock, the Nimbus lock fits the standard 3780 piercing so is easy to upgrade or retro-fit to existing installations.

Available in public, private and RAS remote allocation modes, these stylish locks can be used on endless applications including lockers, furniture, parcel boxes and general enclosures. For further information on the RAS system, please visit www.connectedlocking.com.

The wet area version (Product ID: 3961) is water resistant up to IP65 making it suitable for use in wet and chlorinated environments including locker and storage areas in swimming pools, gyms, health centres or spas.

Standard Features

- ✓ Black, silver or white colour
- ✓ Surface mount and semi-flush fit fitting options (maximum 20mm protrusion)
- ✓ Steel override key
- ✓ Two or three point fixing
- ✓ Wide variety of cams
- ✓ LED indicator lights around logo button
- ✓ Optional audible keypad
- ✓ Battery condition indicator
- ✓ 8-digit master code
- ✓ 6-digit sub-master code
- ✓ 4-digit user code
- ✓ Private or public user modes
- ✓ 20mm or 24mm spindle length
- ✓ Auto unlock mode
- ✓ Auto lock mode
- ✓ Technician mode
- ✓ 2 x AAA batteries (included)
- ✓ Up to 50,000 cycles per pair of batteries
- ✓ Vertical, left and right hand fixing
- ✓ Multiple incorrect code timed lock-out protection
- ✓ Fits standard 3780 digital combination lock piercing

Optional Features

- ✓ Available with Remote Allocation System (RAS)
- ✓ Chrome finish
- ✓ Brushed Nickel finish
- ✓ Door open alarm
- ✓ Pre-programmed modes and codes
- ✓ Customised logo

Zenith 
digital combination locks

Zenith Digital Combination Lock

With a solid zinc alloy housing, 10-digit keypad, multiple fixing points and a secure key override as standard, the Zenith digital lock is the perfect choice for a wide variety of applications.

The Zenith range of locks is truly versatile and includes flush and surface mount form, a slam bolt closing option, a lock that is designed specifically for use in wet and chlorinated areas and an ADA/DDA compliant lock.

All of these locks can be used with the Remote Allocation System (RAS) which adds the ability to remotely manage the locks, eliminating site visits. For further information on the RAS system, please visit www.connectedlocking.com. Supplied with a wide choice of cams, this lock is suitable for numerous applications including lockers, cupboards, medical cabinets, furniture and other enclosures.

Standard Features

Product ID: 3963

RFID Contactless Lock

The Nimbus RFID digital lock provides contactless locking in the same sleek, slimline style and footprint as the Nimbus digital combination lock.

Manufactured in the UK, Nimbus is compatible with RFID standards and incorporates a membrane touchpad for ease of programming. The keypad can also be used to override the lock when required.

Available in public, private and RAS remote allocation modes, typical applications for the lock include commercial and office environments, lockers and enclosures. For further information on the RAS system, please visit www.connectedlocking.com.

Standard Features

- ✓ Choice of RFID card or keypad use
- ✓ Black, silver, white, chrome and brushed nickel colour available
- ✓ Steel override key
- ✓ Two or three-point fixing
- ✓ Wide variety of cams
- ✓ LED indicator lights
- ✓ Optional audible keypad
- ✓ Battery condition indicator
- ✓ 8-digit master code
- ✓ 6-digit sub-master code
- ✓ 4 or 6-digit user code
- ✓ Private or public user modes
- ✓ 20mm or 24mm spindle length
- ✓ Private multi-user code
- ✓ Technician mode
- ✓ 2 x AAA batteries (included)
- ✓ Up to 50,000 cycles per pair of batteries
- ✓ Vertical, left and right hand fixing
- ✓ Multiple incorrect code timed lock-out protection
- ✓ High, normal or low speed detention mode
- ✓ Auto-timed unlock feature

- ✓ One or two time RAS mode
- ✓ Alternative colours
- ✓ Pre-programmed modes and codes
- ✓ Customised logo

Gemini 
digital and mechanical locks

Product ID: 3700

Product ID: 2700

No More Lost Keys

Manufactured in the UK to exacting standards, the Gemini is available in either digital or mechanical form. Both versions share the same profile and fixing template, giving maximum flexibility and choice at the point of installation.

A truly adaptable solution. This innovative lock range is available in both flush and surface mount form and in a choice of standard or custom colours.

The small footprint and option of vertical or horizontal orientation make Gemini the perfect choice for a wide range of applications, including lockers, cabinets and cupboards.

Digital Standard Features

Product ID: 3700

- ✓ Black, silver or white colour
- ✓ Flush or surface mounting
- ✓ Vertical, left and right hand fixing
- ✓ 4-digit user code
- ✓ Public or private modes
- ✓ LED indicator lights
- ✓ Battery condition indicator
- ✓ Mechanical override lock
- ✓ Wide variety of cams

Mechanical Standard Features

Product ID: 2700

- ✓ Black, silver or white colour
- ✓ Flush or surface mounting
- ✓ Vertical, left and right hand fixing
- ✓ 4-digit user code
- ✓ Lost code finder key
- ✓ Easy code change
- ✓ Wide variety of cams

Digital Optional Features

- ✓ Available with Remote Allocation System (RAS)

Eclipse
digital combination locks

Product ID: 3760

Eclipse Furniture Lock

This innovative digital combination lock can be retro-fitted to office furniture and provides a clear upgrade path for new and refurbished office furniture. Working with a removable cylinder, the lock fits neatly into the aperture left in the furniture when the old cylinder is removed.

The lock is also ideal for use in modern office environments where employees work flexibly and move around different areas or sites and do not have allocated desks.

Personal and temporary storage for employees' belongings and delivery of mail can be provided by banks of lockers as well as traditional pedestals.

Featuring a solid zinc alloy housing, ten-digit keypad, multiple fixing points and a secure mechanical key override, this digital combination lock is the perfect choice for any office environment.

Standard Features

- ✓ Retro-fits to existing systems which incorporate a removable cylinder
- ✓ Simple fitting to new furniture
- ✓ Easy to fit with adapter and two screws
- ✓ Vertical, left and right hand fixing
- ✓ Mechanical override lock
- ✓ LED Indicator lights
- ✓ 1 x AAA Battery (included)
- ✓ Battery condition indicator
- ✓ 8-digit master code
- ✓ 4-digit user code
- ✓ Black, silver or white colour
- ✓ Wide variety of cams
- ✓ Private or public user modes
- ✓ ADA/DDA compliant
